

Compass Children's Services are actively recruiting foster carers in a variety of geographical locations across the East and West Midlands.

For this reason we are seeking to increase our pool of social work qualified independent assessors who can undertake Form F assessment work. We offer training and practice development sessions to independent assessors and supervision is offered as part of the assessment process.

Compass pays competitive rates and mileage for Form F assessments.

If you have the relevant experience and skills and are interested in becoming an independent Form F assessor for Compass Children's Services, please send your CV to Karen Elphick at karen.elphick@compasschildren.co.uk
